EXAMINER'S AMENDMENT

1. This Office Action is in response to Paper filed 10/4/2004. Claims 52-56 have been canceled. Applicant's amendment of claims 5-8, 11, 12, 21-23, 27-29, 32-34, 38-41, 43-45, 49-51 and 60-62 is acknowledged. Claims 1-40, 41-51 and 57-62 are pending. Claims 9, 10, and 13-17 are withdrawn from consideration.
2. The objections and/or rejections not explicitly restated or stated below are withdrawn.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Janis Fraser on October 22, 2004.

4. The application has been amended as follows:
Claims 9, 10, and 13-17 are cancelled.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance: The applicant has claimed a nucleic acid molecule encoding the protein of SEQ ID NO: 2 or a fragment that would maintain equivalent activity. The prior art teaches a fragment that lacks the N-terminal WW domains, which leads to the conclusion that this fragment would not possess the requisite equivalent activity. Thus, Applicant's arguments and amendments to the above claims are sufficient to overcome the rejections of record. A standard search did not produce any prior art

that suggests or teaches the claimed invention. The claimed invention is novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Claims 1-8, 11, 12, 18-51 and 57-62 are allowed.
